

To all users of our service, we hope you are keeping safe in these unprecedented times.

We are pleased that we are able to maintain the LSBUD service uninterrupted whilst we work from home in accordance with Government guidelines. Our teams are available to support you as needed.

Please see updates below.

New Members

FrontierPower

Frontier Power

23 March 2020

Frontier Power will be protecting the West of Dutton Sands (WoDS) OFTO which comes to land in Lancashire.

Frontier Power were formed in 2009 and the business has racked up some impressive successes in its core asset management and operational businesses with over £1.1bn of UK Offshore Transmission assets now in their operational control.

New Members

Portsmouth Water

03 April 2020

Portsmouth Water has been supplying water to Portsmouth and the surrounding area since 1857 - The area supplied by the Company extends through South East Hampshire and West Sussex from the River Meon in the West to the River Arun in the East, encompassing 868km² and includes 3,300km of underground pipework.

Portsmouth Water provides high quality public water supplies to a domestic population exceeding 698,000, as well as many important industries, large defence establishments and varied commercial businesses.

New Members

Diamond Transmission

06 April 2020

Diamond Transmission Corporation (“DTC”) will be protecting Offshore Transmission assets it owns as part of its shareholding in Blue Transmission and Diamond Transmission Partners at seven separate locations around the UK.

DTC was established to fulfil Mitsubishi Corporation’s corporate principles – Corporate Responsibility to Society and Global Understanding through Business – by delivering renewable energy to society. They continue to operate offshore transmission lines to provide the infrastructure for the growing offshore windfarm market in Europe.

Blue Transmission is a 50/50 consortium of 3i and DTC. Blue Transmission is owner of four OFTO projects in the UK, totalling 1.3GW of transmission capacity.

Diamond Transmission Partners is a 50/50 consortium of DTC and HICL Infrastructure PLC (‘HICL’). Diamond Transmission Partners is the owner of three OFTO projects in the UK totalling 1.1GW of transmission capacity.

Digging Up Britain 2020

The final edits are being made on this year’s Digging Up Britain Report.

Keep an eye out on the website and our LinkedIn page for further update, including an in depth analysis on a record year for safe digging across the UK.

Damage Prevention Day 2020

Remember, remember....

Despite the disappointment of having to reschedule the Damage Prevention Day to 5th November, the event still provides the only recognised opportunity for all areas of industry to meet and talk with each other about preventing damage to utility networks.

With international speakers and domestic experts, it is an opportunity not to be missed. Further details to follow in the coming months.

Larry Competition

The 2021 Larry Calendar Competition is open until 13 November 2020. Please submit your photos of Larry to be in with a chance to receive a £25 voucher and see your photo featured in our 2021 calendars.

Follow us on twitter @LSBUD for some inspirational photos and [click](#) here for guidance!

If you would like a Larry, please contact us on the below details

If you have any feedback on the service then please do let us know via the website or email us at enquiries@lsbud.co.uk, the social media links below or the new web chat system.
